Dog Trains of Manitoba.

In the northern district of Manitoba dog trains are still in use, and very satisfactory is the time made by the animals, who skim over the frozen snow at a rapid rate. A train arriving at Stanley covered three hundred and fifty miles in four days—well on to ninety miles a day. The railway has opened up communication with the settled districts in southern Manitoba, but the dog continues to supply the best means of transit for passengers and mails in the sparsely settled regions.

SNAKES AND SNAKE STORIES.

India Has 214 Known Varieties of Reptiles But Only 28 Are Poisonous.

Surgeon General Sir William Moore lately read a very interesting paper before the members of the Balloon society, on snakes, says the Westminster Budget.

Sir William approached the consideration of the subject from a popular rather than a scientific point of view, mentioning as his reason for doing so that the names of snakes were so difficult of pronunciation and more difficult of remembrance. Sir William's paper was based upon his experience in India. He declared that more nostrums had been proposed as a certain cure for snakebite than for almost anything else. As there were in India some two hundred and eighteen known varieties of snakes only thirty-three of which were poisonous, it often followed that persons were bitten by non-poisonous snakes, and, after being treated by some nostrum, of course recovered; hence the alleged success of those nostrums. Even poisonous snakes did not always strike with the poison fang. The teeth in all snakes were crooked and hollow, and capable of being erected or depressed at pleasure.

The fang of the common viper was a curious contrivance. It was a perforated tooth loose at the root. In its quiet state the fang lay flat upon the jaw, and was furnished with a muscle, which a jerk suddenly erected. The closing of the jaw pressed the tooth upon the poison bag, and the fluid was sent with considerable force through the hollow of the tooth. It was astonishing to know that the poison might be swallowed without fatal results, but the gallant officer did not go so far as to recommend the experiment. It had been said that in 1778 a snake charmer exhibited snakes at Bartholomew fair which danced on ropes, but the lecturer was decidedly skeptical on the point. Describing how best to avoid snakes, Sir William said a line of carbolic acid powder would keep a snake out of a room, but before adopting this expedient it was equally essential that they should make sure that there was not a snake in the room already, for then it would not go over the carbolic line, even to get out. He mentioned as the best treatment for the snake bite the early application of a ligature above the bite as being the most important preliminary step.

NOTICE TO INVENTORS.

There was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally so great as now. The conveniences of mankind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the appurtenances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who being on the alert, and ready to perceive the existing deficiences, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care can not be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who entrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trademarks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

ZUNI INDIAN DANCES.

In Clog and Double-shuffle Dancing Are Not to Be Compared to Them.

"The Zuni Indians are the original wing and buck dancers," said Mr. George Sherman, a Denver man, to the Fort Worth Gazette. "I've seen the genuine plantation negroes in Louisiana and Mississippi, and the minstrel article, but they are simply not in it with the Zunis.

"I went out to Tuscon, A. T., several years ago, one spring, and we visited a pueblo near where there are many Zuni Indians.

"A fellow with us asked if we had ever seen 'em dance. We said we hadn't, and he said we'd missed a treat, for they took the cake for fancy foot movements.

"He spoke to the old alcalde of the settlement, and he called two men. They were fine-looking men, not very tall, but sinewy, supple and well made.

"Without any preliminaries, they set to, and of all the high jumping, side leaping, heel-and-toe work, sliding, shuffling I ever saw, that dancing was the best. They were light on their feet, graceful and quick as lightning in all their movements. They whirled away from each other with a pretty heel-tap movement, spun around at the same time, touching the tips of their toes, turned a back somersault and came down like feathers, keeping in perfect time. The only accompaniment they had was a rude sort of a tom-tom and the whistling of a boy. They danced for three-quarters of an hour and weren't broken down.

"This was on the bare ground, mind you. Then a fine looking boy brought a stone, not more than a foot square, threw it on the ground, hopped on it, and gave the finest clog dance and double-shuffle I ever saw. He had on cheap, worn shoes, with the heels nearly worn off, but he didn't mind that. He spun around on his toes, on his heels, danced with one foot held in his hand, jumped up and clapped his heels together twice and whirled about on the toe of one foot. Then he beat a sort of tattoo with the heel of one foot, and made some fancy movements with the other. He gave a few ring movements that caught the crowd.

"After he got through with a number of difficult fancy movements he jumped down as fresh as a daisy. There were other dancers, and for eccentric movements, fancy steps and pretty figures I've never seen the like. I understood that Primrose, the minstrel, saw these people dance once and got stuck on 'em and tried to get 'em with his show. They would make a great hit."

FAVORS WESTERN IDEAS.

The Chinese Viceroy Showing That He Believes in the Value of Education.

Li Hung-Chang has given one more instance of his readiness to adopt western ideas where they may some day add to China's power to cope with the foreigner on the field and afloat by the building of a large medical college, which he opened recently at Tientsin, in connection with the naval service. This, says a writer in the New York Herald, is the first institution of the kind worth speaking of, started by the Chinese government, which, despite its craze for western arms, and foreign ships of war, has hitherto made no provision whatever for treating its wounded. The college is upon an extensive scale and will be under the charge of a distinguished graduate of Dublin university, who was selected for the post by the late Sir A. Clarke. The establishment of the college is largely due to the personal efforts of Dr. Irwin, the viceroy's medical attendant, and to a talented Canadian lady, Dr. King, who exercised much influence upon the late Lady Li, and she, in turn, had long urged the viceroy to lay the foundation of an institution where the Chinese might be taught the knowledge of the west in the healing art, in which both the viceroy and his late wife strongly believed. Already some twenty well educated, English speaking young Chinamen have entered the college, and teaching has already commenced. The opening of the new institution was attended by a pleasing ceremonial, in which the foreign and Chinese officials displayed the most friendly relations and gave utterance to the most amicable sentiments toward each other. The aged but still vigorous viceroy evinced the liveliest interest in the entire proceedings.

Paper Handkerchiefs.

In China printing and writing are always respected and the autographs of high dignitaries are revered. Upon ceremonious occasions a great man is attended by his servant, who hands him a small piece of paper every time he wishes to blow his nose. To use a pocket handkerchief would be a western innovation and a shocking derogation from the dignity of a mandarin. Printed or written paper is, however, never used for this purpose, being considered too sacred.

GREENLAND BIRD SKINS.

The Peculiar Methods Employed by the Esquimaux in Preparing Them.

To the Esquimau woman, says Dr. Nansen, the mouth is like a third hand, especially in the preparation of skins, which is a very considerable part of her work. As a consequence the front teeth of the older women are often worn away to the merest stumps. The Esquimau method of preparing bird skins is extremely peculiar and therefore interesting, and is thus described:

The first step is carefully to dry the feathers; then the skins are turned inside out, and the layer of fat is scraped away as thoroughly as possible with a mussel shell or a spoon, and is eaten, being esteemed a great delicacy. Then the skins are hung up under the roof to dry.

After a few days the last remnants of fat are removed from them by means of chewing; then they are dried again, washed in warm water with soda and soap three times over, then rinsed out in very cold water, pressed, and hung up for the final drying. If the feathers are to be removed so that only the down is left, as, for example, in the case of the eider duck, they are plucked out when the skin is half-dry. Then it is thoroughly dried and cut up, and so is ready for use.

The chewing is a very remarkable process. The operator takes the dry skin, almost dripping with fat and chews away at one spot till all the fat is sucked out and the skin is soft and white; then the chewing area is slowly widened, the skin gradually retreating farther and farther into the mouth, often until it disappears entirely, to be spat out again at last with every particle of fat chewed away.

This industry is for the most part carried on by the women and children, and is very highly relished by reason of the quantity of fat it enables them to absorb. In times of scarcity, the men are often glad enough to be allowed to do their share.

It is a strange scene that is presented when one enters a house and finds the whole population thus engaged in chewing, each with a skin in his mouth. The peculiar excellence of the Greenland bird-skin is due to this process.

AN ARTFUL DODGER.

The Loon's Immediateness in Getting Under Cover.

Every treatise upon loons dwells admiringly upon their wonderful powers of self-protection, says a writer in the Boston Transcript. There is no denying that all loons ever hatched up to date have been "artful dodgers" in superlative degree. The question is often raised whether they are quick enough to dodge a bullet. I once had a guide who drew a distinction quite too fine, as I thought. He claimed that a loon could see the flash of a percussion cap at the breech of a muzzle-loading piece, and could dodge, but admitted that with the rifle loaded like all modern ones, at the breech, no loon could escape a shot rightly aimed. For my part, I do not believe the interval of time between the fire at the two ends of the barrel to be measurable by eyes of birds or men, or anything short of a chronograph. As to the question, however, it is possible to reason with tolerable confidence. We know the speed of a rifle bullet. Call it fourteen hundred feet a second. Imagine your loon at that distance, or nearer. Then reflect how slowly a bird's head must move to use up more than a second in dropping a few inches under water. Gravity alone would carry it further than that. It is easy to believe that if the wary bird happens to be looking toward the hunter, the rifle flash suggests danger. A half second would give ample time to dodge, provided the action begin promptly. It is safe to say that it takes a loon's weight in lead to kill him, and we may call it settled that if a loon does not dodge a bullet, at least the lead goes down in the same hole in the water.

HE FELT HURT.

The Old Gentleman Didn't Like to Be the Innocent Cause of Sarcasm.

On a Michigan avenue car the other day a woman had a baby about a year old on her lap, and next on her right sat an oldish man, who was evidently fond of babies. The child looked at him and he smiled and clucked in return, says the Detroit Free Press. He was getting along finely, when all of a sudden the kid puckered his lips and began to howl.

"There, there. Don't cry, my precious lamb," said the mother, in soothing tones.

"Seems to be afraid of me," observed the man.

"Yes, sir, he do, and I can't make it out. I had him out in the country last week, and he saw hogs and horses and cows right along and never seemed to care about 'em."

A giddy young woman across the aisle began to giggle and a man standing up and hanging to a strap uttered a gruff "Haw, haw, haw!" and slapped his leg. The old man flushed up and looked hurt in his feelings, and seeing another giggle and another haw! haw! haw! on the way he rose up and went out on the platform and said to the conductor:

"This is about the tenth time I've been insulted on this road this year, and the next hyena that does it is going to get both eyes knocked into one!"

CARNOT ASSASSINATED.

France has lost her President by the hand of an Italian Anarchist, and that great Republic has been bereft of one of her greatest and most popular Statesmen.

President Carnott was assassinated at Lyons on Sunday night while proceeding from a banquet to the theatre. The assassin, with a large bunch of flowers in hand, approached his carriage, and the guards supposing he wanted to present the flowers to the President, made way for him, and he sprang on to the carriage steps and drove a knife into him, the knife cutting through his liver and causing death in a few minutes. His assassin was quickly seized and had it not been for the police he would have been quickly lynched. The news of the President's death created great excitement throughout France and assaults upon Italians were frequent. The entire civilized world sympathizes with the people of France in their great loss.

THE TICKET.

The following is the Republican State ticket lately nominated by the Sacramento Convention:

Fifth district to be nominated later.
Sixth district—James McLachlan.
Seventh district—W. W. Bowers.

We guess the Republicans of this State have had enough of "big Conventions," "Representative Conventions," etc. like the one we have just had. Had it been a smaller Convention of well-selected delegates there would not have been so many mistakes made, for it cannot be denied that the Convention made mistakes.

The great Pullman Car strike has stopped all the Southern Pacific trains. The Company says it will not run any trains if it cannot run Pullman cars. No one can go East, South, North, or any other way until this great strike is ended.

CROSSING THE ATLANTIC

Usually involves sea sickness. When the waves play pitch and toss with you, strong indeed must be the stomach that can stand it without revolting. Tourists, commercial travelers, yachtmen, mariners, all testify that Hostetter's Stomach Bitters is the best remedy for the nausea experienced in rough weather on the water. Nervous and weakly travelers by land often suffer from something akin to this, and find in the Bitters the surest remedy. No disorder of the stomach, liver or bowels is so obstinate that it may not be overcome by the prompt and thorough remedy. Malarious districts is it for chills and fever, kidney complaints, rheumatic trouble and nervousness. Those going to the frontier should provide themselves with this fine medicinal safeguard against the effects of vicissitudes of climate, hardship, exposure and fatigue.

Arrivals, Tuesdays, Thursdays and Saturdays, 6 P. M.

LOCAL INTELLIGENCE.

Personal.

Miss Gracie Benjamin, of San Francisco, who has been visiting her sister, Mrs. W. O. Parker, left for home on Whittemore's stage Monday morning

Henry Mathey, one of the owners of the travertine quarry, departed for his San Francisco home on Sunday morning. Joe A. Brown took him to Antelope Valley to look at the marble quarry near Coleville.

Supervisor Calnan came over from Benton with Sheriff Hayes on Monday.

L. C. Lucas was over from Mono Lake this week.

Ed. Doud was up from Sweetwater this week.

M. J. Jones, traveling for Baker & Hamilton, arrived from Sacramento on Thursday evening.

Mr. Bell, of Bell & Edwards, Carson, was here this week.

Miss Lillie Kirkwood arrived home from Oakland, where she spent the Winter, on Wednesday, her brother James having met her at Carson.

Sheriff Hayes and Deputy Sheriff Ed. Murphey have gone to the Sonora road looking after sheep licenses.

Assessor Welch is in town closing up the Assessment Roll.

Mr. Williams, of the Home Life Ins. Co. is in town.

John McKay was up from Antelope yesterday.

FOR STATE SENATOR.—The Senatorial District Convention, composed of Delegates to the State Convention from Alpine, Amador, Calaveras and Mono counties, met during the session of the State Convention at Sacramento and nominated the present Senator E. C. Voorheis, of Amador county for State Senator from this Senatorial District. We believe that Hon. Cyrus Coleman could have received the nomination had he offered himself, as Senator Voorhies stated he did not want it again, but would accept it if there were no other candidates. Had Mr. Coleman been a candidate, as it was supposed here he would be, Senator Voorhies would have made way for him, and this side of the mountains would have had two members of the Legislature.

WILL RE OPEN.—It is said that Wells, Fargo and Co. will re-open their offices at Bodie and Bridgeport on the 1st of July or thereabouts. These offices were closed about a year ago on account of Hogan, the stage owner, "striking" for higher pay for transporting the express matter. Wells, Fargo & Co. demurred to his demands, and as Hogan persisted in his "strike," which the Express Company considered an imposition, they discontinued their business in this county until a new line of stages was put on the route. As this is the last day of Mr. Hogan's mail contract Wells Fargo & Co. will resume business here. L. Wines, the new contractor, is an old stage man and will give the people of Bodie better service than they have had since its "boom" days.

ANOTHER CANDIDATE.—Paul W. Bennett, of Independence, and formerly of Bridgeport, announces himself in the Inyo Index as a candidate for the Assembly. As Inyo will have four votes in the joint Convention to the three from Mono and two from Alpine it will require but one vote from Alpine or Mono to settle the vexed Assembly question—providing Inyo is solid for Bennett.

TONSORIAL ARTIST.—As will be seen by his advertisement in another column Thos. F. Coyle has opened a barber shop on Sinclair street in the rear of Stewart Kirkwood's Saloon, where you can get a clean shave and have your hair cut in fashionable style.

MONO'S RIGHT.—The Inyo Independent, Dem., says that "Mono county will have the right to name a Democratic candidate for the Assembly this year." Why is it not Alpine's right? Don't the Democracy recognize her?

CLOSED.—Miss Tracy Barnes closed her private school yesterday afternoon, and will leave for her Carson home on Monday's Antelope stage. Miss Barnes made many warm friends here who will be glad to have her return to her old school.

CHOSEN FRIENDS.—Nearly thirty members have been secured for the new lodge of Chosen Friends, to be instituted in Bridgeport as soon as the necessary paraphernalia arrives from San Francisco.

BODIE TUNNEL SUED.—James K. Lynch, of San Francisco, has sued the Bodie Tunnel and Mining Company upon a promissory note for $16,726 85, executed June 30, 1890, with interest at 7 per cent from date.

ICE CREAM.—Mrs. S. A. Hopkins will have ice cream at her parlor to-morrow.

THE FOURTH.

The celebration of the Fourth promises to be equal to any we have had, if it is not a little better. The literary and musical exercises at the Hall will be pleasing to all who attend, and the sports in the afternoon will be lively and enjoyable to both old and young. The Brass Band is doing good practice and ought to furnish fine music, and it undoubtedly will. The horse racing in the afternoon is exciting great interest among our horsemen, and it is expected there will be some good running. There should be a good trotting race to carts.—Our horsemen should show visitors some of the trotting qualities of our Big Meadows stock. The ball in the evening at Bryant's Hall will be a grand one. The music will be the finest we have had, the Orchestra Band being well up in practice and having lots of new music to please the dancing element of our population. If you want to enjoy a good Fourth of July celebration come to Bridgeport and get enough of it to last a year, and then we will give you another one.

GRAND CONCERT.—A grand concert will be given at Bryant's Hall on Tuesday evening next, 3d of July. In addition to our local talent, Miss Emily Edwards, of Oakland, will give a recitation, and Miss Lois McClellan, of Los Angeles, and Miss Hattie Searles, of San Francisco, will assist in the musical portion of the program, which will be a pleasing one, and suited to all tastes. There will be a free dance after the performance until 12 o'clock. If you don't go to it you will miss a treat.

HIS LAST.—Whittemore will make his last trip to day with the mail from the Mountain House and Antelope, his contract ending to night. Mr. Whittemore has done good service, in Winter and Summer, in good weather, and in weather horribly bad in Winter. He has had good teams and comfortable stages, and withal has been very accomodating to the traveling public, and to all on his route, and they will miss "cranky" Ned.

MONEY ORDERS.—After to-morrow Uncle Sam's money orders can be obtained at the Postoffice at the following rates: Orders for $2 50 or less, 3 cents; over $5 to $10, 8 cents; from $10 to $20, 10 cents; $20 to $30, 12 cents; $30 to $40, 15 cents; $40 to $50, 18 cents; $50 to $60, 20 cents; $60 to $75, 25 cents; $75 to $100, 30 cents. Postal notes have been abolished.

ANNUAL SHOOT.—The annual shoot to prevent the swallows getting their nests on the Court House is under full headway.—The roof of our office has been well peppered by the falling shot which has been fired at the bed bug carriers. If you don't want your houses and barns filled with the festive bedbug, don't let them make a nest about your premises.

NO MAIL.—Owing to the Pullman Car strike we received no Western mail this morning. A dispatch to the Virginia Enterprise says that a train of three Pullman cars, three mail cars, two regular coaches and a "diner" left San Francisco at 10;10 Thursday night for the East, so we may get a mail to morrow morning.

NEW CONTRACTORS.—On Monday the Raycraft brothers, of Carson, will commence carrying the mail on the Bridgeport—Mountain House, and Genoa and Wellington routes. They are old stage men and will undoubtedly give those living on their routes good mail service.

TAKE A BATH.—Take a ride to Sam Fales' Hot Springs to-morrow and take your Fourth of July bath. A good swim in the hot water bath will recuperate you for the great Day. The road is in splendid order.

ON A TOUR.—The Inyo Register says that Messrs. Fairbanks and Hogan, of the State Mining Bureau, are on a trip through Mono and Alpine counties. They went from Bishop to Mammoth District, and we presume in due time they will be here.

SERIOUSLY HURT.—Walter Crawford was this morning seriously hurt by a young colt, which he was breaking, falling on him, and kicking him. He was taken to the Allen House, where the best of attention will be paid him.

DELINQUENT TAX SALE.—The annual sale of property for delinquent taxes will take place in front of the Court House on Monday next.

STATE LAND PATENT.—Governor Markham has signed a land patent for Sections 16 and 36, No. 7,484, Charles E. Day, Mono county, 160 acres.

FINANCIAL REPORT.—To-day we publish the semi-annual report of Auditor Murphey showing the expenditures of the county for the past six months, and the financial condition of the county to-day.

FREIGHT.—Joe Hunt arrived here from Carson on Sunday with freight for Joe A. Brown, and on Tuesday George Peeler came in from the same city with freight for A. F. Bryant.

ANTELOPE LUMBER.—The Standard Con. at Bodie has ordered 16,000 feet of lumber from Boardman's mill, near Antelope Valley. This is going a long ways for lumber—62 miles.

RE-APPOINTED.—Governor Markham has re-appointed W. O. Parker, of Bridgeport, a Notary Public.

WILL MEET.—The Board of Supervisors will meet as a Board of Equalization on Monday next.

The House has passed the bill to admit New Mexico.

ARE THEY AFRAID?—Only one candidate has been publicly announced in this county for a local office. What is the matter? Are they afraid to let people know that they want an office? It costs no more to announce yourself now than it will later on. If a man is worthy of an office in the gift of the people it does him no hurt to let his friends and neighbors know he wants one. Many a man has lost a nomination because his friends did not know he wanted office until they had pledged themselves to some other fellow. Be wise and announce yourselves early. Send the CHRONICLE-UNION Five Dollars and everybody in the county will quickly know you are a candidate.

SHEEP TRESPASS SUIT.—The case of George Troy vs. Anton Eracca, on appeal from the Justice's Court of Homer Township, judgment having been rendered in that Court in favor of Troy for $250 has been again tried in the Superior Court de novo, and on Thursday Judge Virden rendered his decision, awarding Troy $175 damages and costs, it appearing from the evidence that about one-third of the damages claimed was done on portions of the several ditches outside of the lands described in the complaint. W. O. Parker was attorney for Troy, and C. L. Hayes and J. E. Goodall for Eracca.

ASSESSMENT ROLL.—The Assessment Roll of this county is nearly completed and will foot up in the neighborhood of $775,000, outside of the assessment on the Carson & Colorado Railroad, which will be $71,317, additional. The real estate roll has fallen off only $3,687 from last year. Deputy Assessor Wes. Towle is putting on the finishing touches to the Roll, which will be equalized next week by the Board of Equalization.

HABEAS CORPUS.—Mrs. Strickland was this morning taken before Judge Virden of the Superior Court on a writ of habeas corpus. The papers in the case being defective Judge Virden decided to examine the case anew on Monday next.

AN IMPORTANT OFFICE.

We hope the Republican State Convention made no mistake in nominating a candidate for Lieutenant-Governor. It is an important position, aside from being the presiding office of the Senate, and an able man should always be selected for that office, as he may possibly become Governor, as has been the case several times in the history of California. The Republican State Convention at Los Angeles made a great mistake in nominating Waterman, who was totally unfitted for either position, but who through the death of Governor Bartlett became Governor of this great State—and we all know how he filled the position. First-class men should always be selected for the positions of Vice-President of the United States, and Lieut-Governor. The Republican nominee is a young man and totally unknown to the voters of the State. Again we say, we hope the Convention made no mistake in his selection.

An Essay on the Cow.

A Maryland lad is responsible for the following interesting description of a very useful animal:

"The cow is made of cowskin, which is thick and very raw, and this skin is covered with short hair. The cowskin s used for making hide whips. The tail isof very long hair, and is about a yard and a quarter long. The cow is fat and its blood is thick. Its ears are made of cowskin, too. The cow's nose is about a-quarter of an inch thick, and is made of bone covered with skin. Its teeth are used for eating corn. They are each a quarter of an inch long and a quarter of an inch wide. The cow's front paws are made of skin and bone, and each has five nails. The hind legs are like the front ones, and have knots on the middle of them. Some cows are red, some white, some black, some yellow, some pink. Cows are very scarce—that is, ours are—but I don't know about other people's.—They are milked every night and morning, and we get a bucket half full of milk from them.

Linseed oil is said to be a cure for corns, both hard and soft. If they are indurated and very painful the relief it gives in a short time is most grateful. Bind on a soft rag saturated with the linseed oil, and continue to dampen it with the oil every night and morning until the corn can be removed easily without pain.

How great men differ. Aristotle fixed the proper ages for marriage at 37 for the man 18 for the woman. Plato made the ages 30 and 20, and now comes Rev. Mr. Peck and says man should be 30 and woman 25.

Kentucky produces the most hemp, some 35,000 tons a year. It is a pity Justice does not use more of it when made into rope.

Nathan Raymond, of Linlithgo, Columbia county, N. Y., owns a watch which was made in London in 1480. It has been in the Raymond family 200 years.

The Democratic Central Committee of Inyo county appointed Frank Fitzgerald, J. White Smith and A. W. Eibeshutz delegates to the Democratic Conventions.

Frank P. Willard, formerly of Bodie, has been made a Notary Public for Escondido, San Diego county.

A TOUGH CUSTOMER.

The Brown Bear of Alaska Is a Courageous Fighter.

An Instance of the Fearlessness of the Animal—A Few Words of Advice from a Hunter Who Is Familiar with Its Habits.

A sportsman writing to the San Francisco Chronicle advises others who may complain that the California grizzly is growing scarce and losing his nerve that there is a foeman worthy his land in the brown bear of Alaska. He thus describes the brute and his habitat: The northern side of the Kenai peninsula, bordering the shores of Cook's inlet, Kodiak island and the Alaskan peninsula as far west as Unimak island, are the habitat of the Alaskan brown bear (ursus Richardsonii), a huge, shaggy animal, varying in length from six to twelve feet, and weighing from eight hundred to fifteen hundred pounds. This animal possesses all the courage and fierceness of his southern cousin, the grizzly, and has been hunted so little as yet that he is absolutely fearless of man and is an exceedingly dangerous adversary. The island of Kodiak, being more settled than the other localities mentioned, is less favorable as a hunting ground for the sportsman than the wilder regions adjacent. This is especially true of the eastern and wooded end of the island. On the west the country is more open, and on that account seems to be preferred by the bear. There is still good sport to be had in certain localities hereabout, and native guides can always be obtained at the villages situated on the shores of the bays or on the banks of the salmon streams in this vicinity.

Being an expert fisher the bear frequents during the salmon season all the rivers emptying into the Behring sea and the North Pacific and their tributaries as far as the fish go. After the salmon run is over the animal retreats into the recesses of the hills where berries and small game are plentiful.

The brown bear is the great road maker of this part of Alaska. Not only are the banks of the streams trodden into good trails by the huge lumbering brutes, but the swampy plains are crossed in every direction by paths leading to the hills. The traveler will do well to follow them in his journeying across the country, as they invariably lead to the best fording places of streams and form the easiest routes to the hills.

The northern limit of the brown bear's habitat is, as yet, undetermined, but I have seen them in the interior as far as latitude 67 degrees, and they probably range still further.

The mainland of Alaska adjacent to the island of Unga is full of brown bears, and, although somewhat smaller than those found on the west side of Cook's inlet, they are sufficiently fierce and aggressive. Some officers from one of the vessels of the Behring sea fleet went ashore at Herendeen bay during the summer of 1891 on a deer hunt, and one of the party saw a bear about one hundred yards distant eating berries. Without a thought of the consequences he raised his gun and fired at the animal. The shot went wide of the mark, but at the report of the gun the bear started for the hunter on the dead run. His charge was met by a shower of bullets from the officer's repeater, but, although badly wounded, the infuriated brute did not hesitate an instant, but rushed straight at his enemy. When within about ten feet of the hunter the bear rose on his haunches and prepared to close. Blood was pouring in streams down his body. One bullet had shattered his upper jaw, but he was still so full of fight that the outcome of the struggle would have been extremely doubtful had not another of the party arrived and ended the fight by shooting the brute through the brain. An examination of the bear's body showed that it had been struck six times. Three of the shots were in parts of the body ordinarily considered vital, and would doubtless have ultimately caused death; but the vitality of these animals is almost incredible, instances having been cited of their running over a hundred yards after being shot through the heart.

One of the best places in Alaska to find the brown bear is in the vicinity of Portage bay, ten or twelve miles across Unga strait from Sand point. At the latter place a hotel has recently been erected where visiting sportsmen can be assured of comfortable quarters. The ptarmigan shooting is excellent on these islands, and deer is plentiful, if that kind of sport is more desirable. The bear hunter, however, will not have any cause for complaint on account of scarcity of his particular variety of game. Last summer, while I was at Sand point, two hunters came in after an absence of little over a month in the vicinity of Portage bay and reported having killed thirty-three bears. On one day alone they killed seven. In order to show that they were not spinning hunters' yarns they had brought the skins with them and sold them at the trading post at Sand point. In dealing with the Alaskan bear a hunter should never go alone. A companion is almost as essential as a gun.

Hasty Pleasure.

In the recent efforts of a charitable woman to carry consolation and comfort in the homes of the distressed in New York, a crooked old woman was found who resisted all importunities that she had anything for which to be thankful. One mercy and another were suggested to her as reasons why she should at least express herself as having something for which to be grateful. All these she promptly declined. Finally, as the visitor was about to give up the search, the old woman said: "Yes, there is wan thing that I forgot. I've got wan thing for to be thankful. I've got two teeth in me head and they bites opposite."

CHLOROFORM IN ITS EARLY DAYS

The Curiosity of an Undergraduate in 1851 Was Amply Repaid.

Your notice of the discovery of chloroform in 1847 recalls a curious experience in my Cambridge undergraduate life, says H. C. M. in the London News. One evening in January, 1851, I went to a chemist's shop and ordered some photographic chemicals to be sent to my rooms. I had by; I was lodging on the parade. Seeing an ounce bottle of chloroform on the counter I bought it out of curiosity and took it away with me, leaving the chemicals to follow. In my own rooms, seated in an armchair, I put four drops on my handkerchief, and, carefully placing the bottle on the table at some distance from me, I sniffed the handkerchief. A pleasant sensation and a singing in my ears was the only result. So, shortly afterward, I counted out eight drops and acted as before.

The next thing I remember is finding myself on the floor on my back, my dress undone, my face, etc., dripping with cold water and hearing a voice: "He's coming to, I do believe." Yes, it was so. I came to after having been unconscious two hours and a half. Next day my doctor, when out with the foxhounds, was greeted with: "Hullo, doctor. So you raised a man from the dead last night." "You may well say that," was the reply, "for I had given up all hopes." I was very puzzled to account for the effect of my carefully-measured dose. All I could gather from the servant was that she had brought me up a parcel from the chemist, and, seeing me asleep, tried to wake me. Then, "finding I was dead," she ran down into the shop, calling out: "Mr. M—— is dead." Two Trinity men were in the shop. One went on to the six p. m. chapel, telling everyone of my sudden death; the other, after a glance at me, kindly called in Dr. C——.

Some time afterward the mystery was cleared up. The "slavey" gave warning, and the day she left she made the following confession: "You remember that night you was nearly dead, sir. Well, you know, sir, I thought you had fainted, and I see the bottle on the table and I thought it was salts, so I took out the stopper and held it to your nose, but as it didn't do no good I poured a lot of it out into my hand and rubbed it all over your nose and mouth." I told the doctor the story. He replied: "Well, my dear fellow, all I can say is this: If ever you have to undergo an operation you can tell your family doctor that you can take chloroform." Thank God, that necessity has never arisen.

BIRD TOILETS.

Peculiar Habits of the Feathered Denizens of Wood and Field.

The feathered tribes have many peculiar ways and fancies about the details of their toilets. Some birds use water only, some water and dust, while others prefer dust and no water. Birds are not only exceedingly nice in their choice of bath water, but also very particular about the quality of their "toilet dust." Wild ducks, though feeding by salt water, prefer to bathe in fresh water pools, and will fly long distances inland to running brooks and ponds, where they preen and dress their feathers in the early hours of the morning. Sparrows bathe often, both in water and in dust. They are not so particular about the quality of the water as about the quality of the dust. They prefer clean water, but I have seen them take a bath in shallow pools that were quite muddy. The city sparrow must take a water bath where he can get it—in the streets or on the tops of houses—but he is most careful in his choice of his dust bath. Road dust, the dryest and finest possible, suits him best. I have noticed the city sparrow taking his dust bath in the street, and invariably he chooses a place where the dust is like powder. Partridges prefer dry loam. They like to scratch out the soil from under the grass and fill their feathers with cool earth. Most birds are fond of burnt ashes. Some early morning take a walk across a field that has been burnt over and see the number of winged creatures that rise suddenly from the ash heaps. A darting form, a small cloud of ashes and the bathers disappear.

Decorated Dogs.

In France there exists an order of merit founded by the Society for the Prevention of Cruelty to Animals, of which the members are dogs who have distinguished themselves by deeds of bravery, says the Westminister Gazette. A tastefully designed "collar of honor" is awarded to the nominees of the order. Among the animals already decorated in this way one of the most celebrated is Bacchus, a large bulldog, whose specialty it is to stop runaway horses by jumping up and seizing them by the bridle. It is calculated that the intelligent beast has already saved the lives of eight persons, if not more, in this way. Pataud, another bulldog, received a collar in 1887 for saving his mistress from the attack of a footpad, and Turk, a splendid Newfoundland, has had a similar honor for saving three young children from drowning on different occasions.

Where Ocean Cables Are Thickest.

The cable map of the world, prepared by the United States navy department, shows that the Mediterranean is thickly netted with cables west of Malta. So is the North Atlantic between the thirty-eighth and fifty-fifth parallels. The North sea, the Red sea and the Arabian sea have many cables. The only great unbridged spaces are the Pacific, the South Atlantic and the great stretch of the Indian ocean between Madagascar and Australia. There is no considerable cable north of Stockholm or south of Nelson, New Zealand. The Black sea is completely girdled by land lines and crossed by one cable. The Gulf of Mexico is crossed, though not at its widest, by several cables, and the waters of the West Indies are becoming thickly netted with short cables.

A New and Beautiful.... MOUNTAIN RETREAT In the Vicinity of CASTLE CRAGS and MT. SHASTA.

Read what the Rev. J. K. McLean, Pastor of the First Congregational Church, Oakland, says of it:

Hazel Creek, April 14, '94

... I am more than pleased with it—delighted. The place seems to me to embody all available points for a camp—dry, firm soil, good water) the very best), fine chances for drainage, and scenery unsurpassable. The view of Mt. Shasta is one of the very best to be had from any point; it is visible from every part of the ground. The view of the Crags also is fine. The general environment is of the best. It is an oval-shaped amphitheater, three miles long by one fourth to three fourth of a mile wide, with receding walls two to three thousand feet in height, with lines and shades of beauty at every reach. I doubt if a better place can be found in all Northern California.

NEARING THE GRAVE.

In old age infirmities and weakness hasten to close the gap between us and the grave. Happily [illegible] research and pharmacal skill have [illegible] furnishing us a reliable [illegible] of ameliorating the ailments incident to declining years, and of renewing waning physical energy. Its name is Hostetter's Stomach [illegible], a widely comprehensive remedy in disease, and an inestimable blessing to the elderly, the feeble and the convalescent. Rheumatic ailments, trouble with the kidneys and lumbago are among the more common ailments of the aged. These are effectually counteracted by the Bitters, which is likewise a prevention and curative of bilious complaints, dyspepsia, constipation and biliousness. It is highly promotive of appetite, sleep and the acquisition of vigor.

ORDINANCE NO. 57.

AN ORDINANCE FIXING THE TIME IN which trout shall not be taken by Spear, Net or Trap; and in which it shall not be lawful to kill, or destroy Ducks, or Doves; and fixing the open season for taking the same.

The Board of Supervisors, of Mono County do enact as follows:

Ordinance No. 57.

SECTION 1. [illegible] person who in the County of Mono, State of California, between the First day of March, and the Thirty-first day of May, in each year, catches, kills, or takes, by Spearing, Net, or by Trap, any Trout, except with hook and line, or who at any time makes use of any explosives for such purpose, is guilty of a misdemeanor.

SECTION 2. Every person who shall in said Mono County, between the First day of March, and the First day of August, in each year, pursue, [illegible] or destroy, or have in his possession any kind of wild Duck, shall be guilty of a misdemeanor.

SECTION 3. Every person who shall in said Mono County, between the First day of March, and the First day of June, of each year, hunt, pursue, take, kill, or destroy, or have in his possession, any Doves, shall be guilty of a misdemeanor.

SECTION 4. The open season for taking and killing any kind of Ducks in said Mono County, is declared to be from the First day of August, until the First day of March, of the succeeding year, and for the taking and killing of Doves, from the First day of June, until the First day of March of the succeeding year.

SECTION 5. Any person found guilty of a violation of any of the provisions of this Ordinance, shall be fined in a sum not less than twenty [illegible] or be imprisoned in the County Jail [illegible] days, or be punished by both such fine and imprisonment. One-half of all monies collected for fines for violations of this Ordinance, shall be paid to the informer, and the other one-half shall be paid into the County Treasury of said Mono County, and shall be set apart as a separate fund and be subject to the order of the Commissioner of this State for stocking with fish the Lakes and Streams of this County, and for the distribution of game birds in said Mono County.

This Ordinance having been twice read and duly considered by the Board, was put upon its passage, and was adopted, on motion of Calnan, seconded by Nay, by the following vote, viz:

AYES—Arrild, Calnan, Nay, Pitts. NOES—None.

M. J. Cody came over from the Rattlesnake on the Fourth.

J. Barnum was in from Jordan on the Fourth.

Mrs. A. Smith, of Bodie, is visiting her sister, Mrs. Bump.

P. Latropy and family, of San Francisco, were here on the 4th.

John H. Sheehan was up from Clinton on Wednesday. He reports good prospects in the Kentuck.

Earl and Harold Montrose, of Lundy, were here on the 4th.

Supervisors W. Calman, of Benton; A. Arrild and N W. Boyd, of Bodie; W. P. Nay, of Mono Lake, and H. A. Pitts, of Antelope have been in town this week on official business.

County Clerk Murphey and family went to Bodie on Tuesday, where he delivered the oration on the Fourth.

Miss Dollie Pitts of Antelope, has been spending the week with Miss Annie Bryant.

Miss Nay, of Mono Lake, has been spending the week here.

Miss Nellie Hawks returned from Reno yesterday.

Miss Friedell was up from the ranch to spend the Fourth here.

Assessor Welch came over from Bodie yesterday.

CHOSEN FRIENDS COUNCIL.—A Council of Chosen Friends was organized here on Monday evening under the name of "Travertine Council," and the following officers were elected: Councilor, W. H. Virden; Vice Councilor, Mrs Joe A. Brown; Secretary, W. O. Parker; Treasurer, Joe. A. Brown; Prelate, Mrs Clarke Sinclair; Past Councilor, Miss Ella E. Brady; Marshal, L. A. Murphey; Warden, J. H. Cole; Sentry, Mrs. W. O. Parker; Guard, Clarence Wedgate; Trustees, C. L. Hayes, George H. Bishop and A. F. Bryant. The ceremonies were conducted by Z. Alley, of Carson, assisted by Miss Georgie Johnson, of Bishop, who is here as official reporter of the Superior Court. The new Council starts business with a membership of 35, and several others will join this evening.

LAST TRIP.—The change of contractors on the Bridgeport and Hawthorne mail route has caused a change in the mail carrying between Bridgeport and Bodie. Willie Adair having made his last trip from here last Saturday last. Mr. Adair has been the best mail carrier we have had on this route. He was very seldom behind schedule time at either end of the route, and always accommodating. We hope the new line will do as well.

COUNTY MONEY.—On Monday the proper officers counted the money in the County Treasury and found therein the correct amount—$12,279 15.

A CONCERT.—Prof. Heath will give a fine musical entertainment at Bryant's Hall on Monday evening, the 16th. The program will be a good one, and it will be well worth attending.

Lessons given in Oil Painting by Miss Hattie Searles.

THE FOURTH

Bridgeporters should be well satisfied with their celebration of the National anniversary. The town was well decorated with evergreens, flags and bunting, and the attendance from outside precincts, notably Antelope, Bodie and Lundy, was large, our hotels being filled to overflowing, and most of our people having friends to entertain, but full as the town was it was like the old time omnibus, all were accommodated and room for more. The weather was beautiful, notwithstanding Foster had predicted we would have a storm on that Day. It was warm in the morning, but a pleasant breeze made it very agreeable for the outdoor sports.

The Day was ushered in by the firing of a federal salute of 13 guns at sunrise, giant powder being used with a rousing effect on the sleeping community, although there were a few who slept through the thundering reports which shook every building in town to their very foundations. Young America was soon on the streets and filled up the time until the procession formed by burning a large amount of firecrackers to their own delight, if not to their elders.

Owing to a hitch in arranging for a band wagon the procession was not ready to move till after eleven o'clock, when the Brass Band was snugly wagoned and the procession, headed by the Band and Car of State, filled with the necessary complement of children to represent the several States and Territories, moved through the principal streets to Bryant's Hall, where the exercises of the Day were to take place. The Hall was filled before the procession reached it, nearly every seat being occupied by ladies. It was about noon when Hon. Judge Virden, President of the Day, was introduced by W. O. Parker. The Band then played Red, White and Blue, after which President Virden made a short patriotic address, which was well received. The Choir then sang "America," which was followed by the reading of that masterpiece of our forefathers, The Declaration of Independence, by Mrs. M. J. Cody, who showed herself to be a fine reader, and at its conclusion she received merited applause. The reading was followed by "Hail Columbia" by the Band. Little Irene Miller recited "The Fourth of July" in a masterly manner. It is quite lengthy, and she recited it without a break and received a round of applause when she concluded.—District Attorney Chas. L. Hayes delivered an excellent oration, in which he touched on politics, but unfavorably to his own party, scoring some of the Democratic Senators for inconsistency in matters of legislation. He touched upon the hard times now upon the country, and the needs of more stringent immigration laws, paying attention to the vicious Anarchists, Socialists and criminal classes of Europe which are the curse of this country. His remarks in this regard were received with an outburst of applause, showing the trend of the popular feeling regarding these questions. It was a good oration and well delivered. After the oration the Choir sung "The Star Spangled Banner." W. O. Parker then sang in his usual excellent manner, "The American's toast," after which the exercises closed with the Band playing "The Star Spangled Banner."

It was 1:30 before the exercises were closed, which made the patient multitude partake of a very late lunch, but their patriotic impulses sustained them in the great trial of their patience and endurance.

About 3 o'clock the sports commenced, the street, on both sides, in front of the Hall, being lined with spectators, most of the ladies occupying seats taken from the Hall, and the yards and portico along the line were graced by fair ones, while men occupied the fences, so as to get a good view of the horse races, and be out of danger if the horses should take it into their heads to bolt the track. The races commenced with a race for boys under 14 years, 100 yards. This was won by Bert. Lundy, who got first money, $1 50, and —. Schreck, 2d money, $1.

Then 7 year olds tried their luck for 50 yards. George Kinney captured $1, and Frankie Sinnamon 50 cents.

Then came 10 year old boys, 60 yards.—Andrew Miller captured $2, and Leslie Elliott $1.

Girls under 14 then tried their speed, 3 starting. Mary Grey won $1 50, and Ella Cody $1.

Then came one for girls 7 years and under, 50 yards, three starting. Cora Kinney got $1 and Lottie Sinnamon and Madie Cody, tieing, divided second money, each getting the enormous sum of 25 cents.

In the boys and girls race, under 14 years, 60 yards. —, Schreck and Bert Lundy tied and divided the prize.

Several young ladies started in the egg race, 25 yards. Irene Miller came in first with her egg sung in the spoon and captured $3, and Ella Cody $2.

A race for young men, sprinters barred, 100 yards, was run by M. Cavin and Albert Brandon, Cavin getting first money, $3, and Brandon second, $2.

Men's race, free for all, 100 yards. Ed. Brandon won first money, $5, and W. Wommack, $3. Eddie Brandon is a favorite and was congratulated by a legion of friends.

Four boys entered for the sack race, 16 years and under, 25 yards. Several fell by the way, and picked themselves up and fell again, as Gus. Kinney won $2, and Charlie Kinney got $1. This ended the sports for the children.

Then came horse racing. In the free for all race only two were entered, a sheepherder's sorral horse by L. A. Murphey and a brown horse by W. Wommack, of Antelope Valley. The first heat was won by the Antelope nag, but in subsequent trials the brown flew the track at School street—This happening twice, the purse was given to Murphey, the sorrel going through, but the brown was ahead when he bolted.

The Mustang race was won by Walter Crawford.

The Vaquero race was a poor showing, Emery Kirkwood and W. Crawford being the contestants. Crawford went through, but Kirkwood made a poor selection of horses and failed, his horse being on the "buck" and balky, so the money went to Crawford.

The slow race did not come off, and the ring of war did not materialize on account of being too late.

In the evening a grand ball took place at Bryant's Hall, which was crowded with lovers of the dance and a goodly sprinkling of wall flowers. It was the largest party ever given in the Hall, but large as it was all seemed to enjoy it, as was evidenced by the dancing being continued until about sunrise. We believe the people of Mono county enjoy dancing more than any other community on the face of the earth. A fine ball supper was served at the Leavitt House at midnight.

THE CONCERT.—The concert given on Tuesday evening at Bryant's Hall by Prof. C. E. Heath was a credit to all who participated, and a pleasure to those who were fortunate in being able to attend. The program consisted of the following: Piano Duet—Poet and Peasant, Miss Annie Bryant and Prof. Heath. Song. "Kiss Me Good Night, Darling," Miss Gracie Stewart. Vocal Trio, "Little Voices at the Door," Misses May Hopkins, May Huntoon and Irene Miller. Piano Solo, "Mourning Voice" Miss Hattie Searles, of San Francisco. Medley Quartette, Mrs. A. P. Allen, Mrs. Joe A. Brown, Joe A. Brown and W. O. Parker. Song, "Blue Violets," Miss Addie Donnel. Recitation, "Archie Dean," Miss Emily Edwards, of Oakland. Song, "An American's Toast," W. O. Parker. Piano Duet, "Concert Waltz," Miss Lois McClellan, of Los Angeles, and Miss Hattie Searles. Song, "When the Tide Comes In," Miss Gertie Towle. Vocal Trio, "Dost Remember," Misses Gertie Towle and Maud Stewart, and Prof. Heath. Piano Solo. Narcissus, Miss Hattie Searles. Character Song, "Daisy Bell," Miss Annie Bryant. Recitation, a comic French piece, Miss Emily Edwards. Song "The Old Brigade," Prof. Heath. This song was sung by Mr. Heath nine years ago for the first time at the reception given by the famous Seventh Regiment of New York to the Old Veterans. The audience showed an appreciation of the entire program by demanding numerous encores, particularly in the instrumental pieces and recitations, and "Daisy Bell," which captured the house. The attendance was good, but not as large as the entertainment merited.

A FINE MAP.—H. H. Bence, the surveyor, has surveyed and made a fine map of the travertine quarry and surroundings.—The map has been sent to the new owners in San Francisco by Joe. A. Brown.

ON THE ROLL.—The Assessment Roll of this county shows that there are 522 taxpayers in the county, 64 of them paying on personal property only.

OUR THANKS.—We thank our young friends E Whittemore, of the Antelope route, W. Adair, of the Bodie stage line, and Felix Martin, of the Wellington & Genoa line, for many favors extended this office while they were carrying the mails.

BEAUTIFUL FLOWERS.—Miss. D. Pitts, of Antelope Valley, on Sunday presented Mrs. Folger, of the CHRONICLE-UNION, a large bouquet of beautiful flowers. The cold, backward season has not been favorable to flori-culture and fine bouquets have been scarce.

PRESENT YOUR BILLS.—The Fourth of July Committee will meet on Monday evening next to settle all bills, so present them at once to A. F. Bryant, Treasurer, or ever after hold your peace.

FREIGHTS.—Russell's big team, and Joe Hunt arrived from Carson on the 3d, both loaded with goods for our merchants, just in time for the Fourth.

SCALPS.—The Supervisors this morning burned 61 coyote scalps, representing $305 for the State to pay.

NEW SAWMILL.—J. A. Hawks, of Bridgeport, has purchased the Montrose Sawmill at Lundy, and will at once remove it to his timber land near the Swauger ranch, between Huntoon's and Fales' Hot Springs. He took men, a tent and supplies to his land yesterday to prepare a site for his mill, and to-day he expects to go to Lundy to assist in loading the mill on Nay's team for hauling to its destination. We congratulate our people that Mr. Hawks will have his mill running by the first of August, if not sooner, and be able to supply this section with all the lumber required. He has some good contracts to start with, and has a supply of good timber to last him for five years, if not longer, with ordinary business. This enterprise will be a great help to our town, not only in the employment of many of our people, but in the enabling of our townsmen to make further improvements on their real estate holdings.

THE TAX SALE.—The sale of property for delinquent taxes took place in front of the Court House on Monday in the presence of a large number of buyers and taxpayers.—It was the smallest list ever published in the county, and before the sale day arrived a number of the delinquents paid up, so the number of prices offered for sale was small, but nearly all found purchasers, but little having been knocked down to the State.

FATAL ACCIDENT.—On Tuesday night a cave occurred in an upraise in the Standard mine at Bodie, causing the death of Mortimore J. Cornyn. His partner in the work had a miraculous escape, as he was by Cornyn's side when the cave occurred, but Cornyn was taken and he was left. The deceased was one of the oldest of the Standard miners, having worked in it for the past ten years and was highly esteemed by all who knew him. He left a wife and two children. Being a member of the Chosen Friends and the United Workmen his family will be well provided for. His death caused a curtailment of the Fourth exercises in Bodie, and the ball to be given by the Miners' Union was postponed. The funeral took place on Thursday and was largely attended. Mr. Cornyn was a native of Ireland and 51 years old.

AGAIN DISMISSED.—The examination of Mrs. Strickland for the murder of Mrs. Adaline Eggleston occupied all this week up to yesterday afternoon, when Judge Virden ordered her to be discharged, the evidence against her not being sufficient to convict in the Superior Court. We believe that time will show that the people of Antelope are on the wrong track regarding the murder of Mrs. Eggleston. Murder will out, and it may not be long before the mystery will be unraveled.

NO MAILS.—The Pullman strike is still on. No mails have been received here for 8 days. A mail car runs between Reno and Carson, but none between Reno and San Francisco. Ed. Whittemore arrived from Carson last evening and reports that stages will be put on between Reno and Sacramento. There have been rumors of trouble at Oakland, but nothing authentic can be obtained.

TELEPHONE LINE.—A. F. Bryant has perfected arrangements for erecting a telephone line, to connect with the Bodie line at the Standard Con. Dynamo, and hopes to have it in full operation by the 20th.—This will be a great accomodation to our people and Mr. Bryant's enterprise should be appreciated.

PRECAUTIONARY.—Owing to the tie up of the railroads preventing us getting in paper we are compelled, as a precautionary measure, to issue a half-sheet for the present.

M. M. Waltse went to Benton on Wednesday, accompanied by Supervisor Calnan.

Miss Georgia Johnson returned to Bishop on Wednesday.

R. E. Montrose came over from Lundy on Thursday to assist Mr. Hawks in placing the sawmill plant he bought of Montrose.

TRIAL JURORS.—The following trial jurors have been summoned to attend the Superior Court on Wednesday, the 25th:—J. W. Dechambeau, Fred. Glunz, J. Becker, P. Rousa, A. McKeever, of Lundy; D. F. Donnely, Dan McCarty, Thomas Edwards, P. Geelhoed, H. L. Kennedy, J. J. McBride, of Benton; J. Stendrup, J. M. Donahoe, Thomas Holliday, Geo. Werley, H. C. Curran, W. Butler, W. D. Davidson, J. W. Moyle, J. Long, of Bodie; J. Friedell Thos. Dobbins, J. McGath, C. Kirkwood, P. Parmeter, S. M. Smith, N. B. Hunewill, C. E. Wedertz, J. Williams, H. L. Leavitt, O. H. Stro'bridge, F. M. Richardson, W. Cargill, of Bridgeport; J. A. Matly, J. H. Sturgeon, J. P. Hammond, A. Gardella, C. H. Curry, J. Felisina, J. M. Miller, T. Sylvester, of Mono Lake; Joseph Powell, H. Smithhorst, S. Frost, J. Allard, O. E. Strickland, H. F. Barnett, of Antelope Valley; C. Thieverge, Goat Ranch; A. McNabb, Dogtown; F. L. Lucas, Mormon Ranch.

THE COUNTY MONEY.—The semi-annual report of Auditor Murphey, published in our last issue, shows the county money during the past six months went for the following purposes: Salaries of officers, $4,899 18; Public Schools $4,220 99; Hospital and outdoor poor, $2,850; Criminal, $2,983 93; Roads, $604 50; Midwinter Fair, $500; Supplies, $470 68; Advertising, $203 25—making a total of $15,831 80, a goodly portion of which is chargeable to October, November and December of last year. It will be noticed that the "thieving printers" received a very small quota of the county's cash.

FOR RE-NOMINATION.—Sheriff M. P. Hayes, County Clerk Murphey, Treasurer Brown, District Attorney Hayes, Assessor Welch, and Public Administrator Sayre are candidates for re-nomination, and, being good officers, they will doubtless be voted for to fill the four-year terms. This is a square announcement, and the parties are before the people for their kind consideration.

FRUIT.—Now that the Sonora road is open we may look for fruit teams to put in an appearance. As there is no fruit going East, it may be that this section will be favored with a better class of fruit than we have had heretofore from that section. It is a consolation to know that it cannot possibly be any worse, and if there is any change in its quality it must be for the better.

Those having Watches and Jewelry to be repaired, will do well to send them to R. W. SCOTT, Bodie, who is located there for a short time. All work warranted first-class. Send by stage driver, or Express and it will have prompt attention.

CONSOLIDATED.—The Supervisors passed an ordinance consolidating the offices of Sheriff Tax Collector, Bailiff and Jailer all of which titles may be addressed to Sheriff Hayes, who stands up pretty straight under such a heavy load.

NEW OFFICERS.—The Board of Supervisors appointed R. G. Watkins Justice of the Peace for Antelope Township, vice W. T. Barnes, who failed to qualify. Martin Shields was appointed Constable for the same Township.

THE CONCERT.—Don't forget the grand concert to be given at Bryant's Hall on next Monday evening, the 16th. It will be a fine musical treat, and as the admission will be only 25 cents, the house ought to be packed.

ABOLISHED.—The Clinton School District has been consolidated with the Bridgeport District and all the school furniture removed to this town and stored in the Court House for safe keeping.

PASSED.—Miss Mildred Gregory, of Bodie, captured a first grade certificate from the Esmeralda Board of Education, and Miss Delia Gregory got a second grade, both passing good examinations.

A CONCERT.—Prof. Heath will give a fine musical entertainment at Bryant's Halon Monday evening, the 16th. The program will be a good one, and it will be well worth attending.

Smallest Woman on Earth.

Since the death of Lucia Zarate, the "Mexican midget," the title of being the smallest woman on earth has fallen to Mlle. Paulina, a native of Holland. She is now nearly 16 years of age, is 20 inches high, and weighs a few ounces less than nine pounds. Unlike most midgets (who are usually hideous monstrosities) she is remarkably pretty and accomplished, speaking four different languages fluently.

DISASTROUS CLOUD BURST.

A heavy thunder storm visited this section last evening, causing "cloud bursts" with disastrous results. A cloud burst about 8:30 carried away the milk house at Mormon Station, and two Frenchmen, who were in it, were undoubtedly drowned. The dwelling was saved through the heavy weight of supplies for sheepmen, who stop there.

A portion of Judge Murphey's toll house at Clearwater, four miles this side of the Station, was carried away, but no one was injured. The road to Bodie has been completely destroyed for a long distance by the raging torrent.

Warren Loose left Bodie last evening for Carson about 8 o'clock, intending to drive all night, but he was compelled to camp on the road near Little Mormon and reached here this morning about breakfast time, having been compelled to pick his way over the little Hot Springs road.

SONORA ROAD OPEN.—Superintendent Baker, of the Sonora wagon road, arrived at Rickey's Station, at the junction of the Sonora and Antelope roads, at 4 o'clock Monday afternoon, after completing repairs on the road, which is now open for the Summer travel.

THE MAILS.—It is two weeks since we received a San Francisco or Eastern mail. Yesterday we received the Virginia Enterprise of the 1st, 3d, and 4th, and a few copies of the Carson News, the latest being Tuesday's, the C. & C. having run a train from Carson on Thursday.

THE TELEPHONE.—A. F. Bryant has been busy this week, with a number of hands, putting up poles between town and the Dynamo for the new telephone line, which he hopes to have in running order by the 20th.

ON THE GROUND.—The machinery of the Montrose sawmill, bought by J. A. Hawks, passed through town on Thursday and was safely delivered at the site. It was fortunate it came through before the cloud burst.

BUTTER TRADE.—Considerable butter is being sent from our Bridgeport dairies to Bodie by stage.

PRECAUTIONARY.—Owing to the tie up of the railroads preventing us getting in paper we are compelled, as a precautionary measure, to issue a half-sheet for the present.

WILL MEET.—The Republican Central Committee will meet at Bridgeport on Monday, the 23d, at 1 o'clock, to call primaries, etc, to nominate a county ticket. The Crawford plan will probably be adopted.

MASS.—Rev. Father Stack, of Bodie, will hold services at the School House to-morrow morning at 10 o'clock.

Dr. D. W. Wiles, from 642 Market street, San Francisco, is in Bridgeport for the benefit of those wishing their eyes tested and headaches relieved, and their pebble glasses fitted to benefit the sight. Call at the Leavitt House and see him, as he will remain but three days only. Satisfaction guaranteed to all.

THE PULLMAN STRIKE.

Dispatches from the East, and from points in our own State, regarding the Pullman strike are very contradictory and unreliable.

The latest news is: That President Cleveland issued a proclamation to the [illegible] things to keep the peace and refrain from destroying property, and on Monday he issued another one, declaring Chicago under martial law, and also commands all "unlawful obstructions, combinations and assemblages in California, North Dakota, Montana, Idaho, Washington, Wyoming, Colorado, Utah and New Mexico to stop, especially along long lines of Railroads of military or post roads carrying U. S. Mails," and commands all unlawful combinations and assemblages to disperse and go to their homes before 4 P. M. on Tuesday last.

President Debs, of the American Railway Union, was indicted by the U. S. Grand Jury at Chicago for conspiracy, and arrested, the U. S. District Court allowing him to go on a $10,000 bail bond. United States troops have been sent to Sacramento, where the strikers were well armed and defiant, they possessing, it was claimed, 1,600 guns. The President of the Sacramento Division of the A. R. U. sent a telegram on Tuesday to Manager Towne, of the Southern Pacific, at San Francisco, that the employees of the company would man and see safely to its destination all passenger, freight and mail trains, provided the employees should be re-instated without prejudice and no Pullman cars attached to the trains.

The blockade of the stock yards at Chicago was raised on Tuesday, a train of 55 cars of meat going without trouble. It was the first to leave since July 4th.

The bridge on Monon road, Ill., was burned on Tuesday.

On Tuesday an overland train left the S. P. depot, Los Angeles, for New Orleans, and soon after another train with mails, baggage and Pullmans left. The crews were not all Union men. Both trains had U. S. troops on board. All the local trains were running on schedule time. The Santa Fe also sent out a train overland, guarded by U. S. troops and Marshals.

Eleven armed strikers captured a train at Galt and ran up to Sacramento on Tuesday.

At San Jose on Tuesday, under Sheriff Farris and 28 special Deputies and 50 business men, acting as special Deputies, and 20 policemen and a gang of men took possession of the broad guage depot. They were not molested by the strikers, who gathered in large numbers.

On the same day a train was wrecked near Lasalle, Ill., 19 cars leaving the track, the spikes of which were taken out. The Engineer and fireman jumped off and saved their lives.

The blockade on the Wabash R. R. at Ashland, Ind. is raised. All Union men at work.

Everything was quiet at Portland, Or.

On Tuesday the steamer Alameda took from Benicia barracks for Sacramento, Co. E., U. S. Infantry, Capt. O'Conner and Lieut. Kirkman and 254 men, with 200 rounds of ammunition each and several Gatling guns.

On Tuesday night a body of 15 men invaded Lathrop about 11 o'clock and in a systematic manner took charge of the telephone and telegraph offices, and then went to the round house, fired up an engine, and attached a Pullman Car and went to Sacramento.

Attorney-General Hart is the leading adviser of the strikers at Sacramento, and advised them not to resist the U. S. troops.

On Wednesday a train was made up at Sacramento for San Francisco and started under escort of U. S. troops. On arriving at the first trestle, about 2½ miles west of the city the train was ditched, some villians having removed the fish plates and spikes from the rails, the engine and three cars going through. Engineer Clark and five soldiers were shot and killed by the strikers, who were concealed in the brush and opened fire on the soldiers with their Winchesters. Engineer Clark was killed at the first fire and before the troops could respond the train was ditched. The news of the horrible crime has created deep indignation in San Francisco. Thousands gathered at the bulletin boards and denounced the strikers.

Attorney-General Olney has offered a reward of $500, and the Southern Pacific $5,000 for the arrest and conviction of the train wreckers, and murderers.

A man named Warden and several others have been arrested and the Sacramento Sheriff says he has evidence enough to convict Hopkins.

A large number of the employees of the Southern Pacific ask to be reinstated.

Chicago mechanics demanded of Pres. Debs the withdrawal of the strike; that the country could not stand it, and he declared it off.

In Chicago it is considered the strike is over.

More fighting in Sacramento, and a number killed. More troops have been sent to that city.

REFORMS IN NEW YORK.

The people of New York when they pay their taxes this year will experience a vast difference between Democratic rule and Republican business methods. The last Legislature of that State was Republican in both branches, but it was handicapped by a Democratic Governor, Flower, who vetoed 133 bills the Republicans passed, among them some looking to "purity in politics," which Tammany did not like, hence the vetoes. The Australian ballot law we believe was one of the good bills vetoed by the great partisan Governor. But notwithstanding the Governor was in the way of great reforms in the administration of State affairs, the Republicans reduced the State taxes from 2.58 mills under unrestricted Democratic rule to 2.15 under a Republican Legislature. Last year the Democratic Legislature appropriated a total of $17,427,335 98, while this year's Republican Legislature appropriated $15,102,636 47, showing a difference in favor of Republican reform and economy of $2,323,699 51 a large sum saved to the taxpayers in these hard Democratic times. It is to be presumed that such a good showing in the interest of good government and economy will result in the election of a strong Republican Legislature and a Republican Governor in November next. The Constitutional Convention now forming a new Constitution for that State is composed mostly of Republicans, very few Democrats having been elected to it, and it is adopting many good ideas, some of which are from our California Constitution, notably, the election of Governor every four years instead of two years, and the election of a Legislature every two years, and doing away with yearly sessions of that body. It is also proposed to reduce the common law jury panels from twelve to six; that no person shall be allowed to vote or hold an office unless he can read the Constitution in the English language and write his name; to probibit all sectarian appropriations. Some of the above propositions are now before the people of California for ratification.

The Tariff Bill.

The Tariff bill has passed the Senate, but in such a shape as not to suit the House, which refused to agree to the Senate amendments. A Conference Committee has been appointed but it is not likely they can agree, and the friends of free trade will have to do their work over again, with probably no better results. As Congress is expected to adjourn next month, the November elections will settle the free trade question, and no one will have the courage to introdnce another bill like the Wilson monstrosity.

NEARING THE GRAVE.

In old age infirmities and weakness hasten to close the gap between us and the grave. Happily scientific research and pharmacal skill have allied themselves in furnishing us a reliable means of ameliorating the ailments incident to declining years, and of renewing waning physical energy. Its name is Hostetter's Stomach Bitters, a widely comprehensive remedy in disease, and an inestimable blessing to the elderly, the feeble and the convalescent. Rheumatic ailments, trouble with the kidneys and lumbago are among the more common ailments of the aged. These are effectually counteracted by the Bitters, which is likewise a prevention and curative of malarial complaints, dyspepsia constipation and billiousness. It is highly promotive of appetite, sleep and the acquisition of vigor.

CAMPING AT Sweet Brier Camp

A New and Beautiful MOUNTAIN RETREAT In the Vicinity of CASTLE CRAGS and MT. SHASTA.

Read what the Rev. J. K. McLean, Pastor of the First Congregational Church, Oakland, says of it:

Hazel Creek, April 14, '94.

* * * I am more than pleased with it—delighted. The place seems to me to embody all available points for a camp—dry, firm soil, good water) the very best), fine chances for drainage, and scenery unsurpassable. The view of Mt. Shasta is one of the very best to be had from any point; it is visible from every part of the ground. The view of the Crags also is fine. The general environment is of the best. It is an oval-shaped amphitheater, three miles long by one-fourth to three fourth of a mile wide, with receding walls two to three thousand feet in height, with lines and shades of beauty at every reach. I doubt if a better place can be found in all Northern California.

LOCAL INTELLIGENCE.

Personal.

Prof. Howe, Principal of Carson, Nev., schools, arrived here on Saturday last, accompanied by his son. The Professor will spend his vacation here, hunting and fishing, and his wife and daughters may join him here.

T. D. Richey and wife went to their Antelope home on Sunday.

Mrs. M. M. Eddy arrived from San Francisco on Sunday evening. He was detained two weeks in Sacramento by the "strike," and came home over the Placerville route to Carson, via Glenbrook, coming from Carson in his own conveyance. Mrs. Eddy is in Sacramento, awaiting the running of trains, when she will leave for Bridgeport.

County Surveyor J. G. Thompson was over from Mono Lake, on Monday.

J. M. Miller, of Mono Lake, was here on Sunday.

District Attorney Hayes and W. O. Parker went to Bodie, on Monday, to attend suits in Justice's Court.

Homer Barnett, of Antelope, was here the first of the week.

J. Powell came from Antelope on Tuesday.

S. A. Densmore and wife, and Miss Elsie Gill, of Independence, arrived here, on Tuesday, en route from San Francisco, via the Sonora road.

Mrs. A. F. Bryant, and Misses Annie L. Bryant, Lois McClellan, Hattie Searles, and Prof. C. E. Heath have gone to Buckeye to camp a week or two.

Electrician Davis, of the Standard Con., was here on Wednesday, putting the telephone line in running order.

Rev. Mr. Peck arrived from San Francisco on Thursday, having been obliged to walk from Sonora, making the distance, 100 miles, in three days. He was a victim of the Midwinter Fair.

Wm. Radley was up from Antelope on Thursday.

Misses Winnie Patterson and Myrtle Summers are at Fales' Hot Springs.

J. Whitford, of Sonora, is here visiting his brother Richard.

J. H. Beane, of Lundy, is in town.

A GOOD ENTERTAINMENT.—The concert at Bryant's Hall, on Monday night, given by Prof. C. E. Heath, was a fine entertainment, and a large audience showed its appreciation of the efforts of the performers to please by the generous and well merited applause bestowed, and encores demanded. The following was the program: Piano Duet—Blue Danube Waltz, Miss Annie L. Bryant and Prof. Heath; Song—"Always Take Mother's Advice," Miss Irene Miller; Vocal Duet, "I Long to See the Girl I Left Behind Me," Mr. and Mrs. A. P. Allen; Song—"Forgive and Forget those Angry Words," Prof. Heath; Piano Solo—Flowing Waters, Miss Hattie Searles, who responded to an encore; Recitation—Poor Philip Fryer, Miss Emily Edwards; Song—"Kiss Me Good Night, Darling," Miss Gracie Stewart; Vocal Trio—"Dost Remember?" Misses Gertie Towle, Maud Stewart, Prof. Heath; Piano Duet—Lustspiel Overture, Misses Lois McClellan and Hattie Searles, who responded to an encore; Song, Sailing, Prof. Heath; Song, Millard, When the Tide Comes In, Miss Gertie Towle; Recitation—Curfew Tolls the Knell, Miss Irene Miller, who responded to an encore. The little Miss is a finished elocutionist for one so young.—Song—"Mother's Pet," Miss Annie L. Bryant. In response to an encore she gave Daisy Bells, in character, and repeated a portion in response to another encore. Piano Solo, Gottschauch "Last Hope," Miss Searles, with an encore; Character Song—"I'm Not Myself At All," A. P. Allen, and a Dutch song for an encore. The performance closed with the last two scenes from the Cantata of The Chefs Picnic.

TOOK THE OCEAN.—On the night of the 13th a man was sleeping in the portion of the toll-house, at Clearwater, taken off by the rushing torrent from the cloudburst. When he found he was afloat he took a survey of the situation and concluded to stay by his "ship," which soon came to an anchor, right side up, and located as well as it could have been by human agency. It is shaded by willows, and is fronted by a fine lawn, and could be made a pleasant summer resort. The man supposed the whole toll house had been carried off and down the creek, and that he was the only one saved, so instead of going out into the moonlight and taking a survey of the situation, he went to bed and slept soundly till morning, when he was astonished to find that his bedroom was the only part of the house carried away.

ADMITTED.—On Tuesday, Judge Virden admitted Frank E. Hunewill to practice in the Superior Court.

THE CLOUDBURST.
The Bodies of the Drowned Men Found.

When the news reached here on Saturday morning last that a cloudburst had washed away the Bodie road above Clearwater, and carried away a portion of Judge Murphey's toll house at Clearwater Station, and that two men had lost their lives in a milk house, carried away by the rush of water at Mormon Station, four miles above Clearwater, it created much excitement, and it was not long before a large number of people were on the way to Clearwater. L. A. Murphey was the first to start out, he getting away soon after Warren Loose, of Bodie, arrived with the news, it being his intention to bring his father, Judge Murphey, to town. County Clerk Murphey and District Attorney Hayes soon followed, and at once commenced a search for the bodies of the men drowned in the milk-house, and before they reached Clearwater they met an Indian, who said he had found a body of a man, and took them to the spot, in the creek just below Mormon Station, where the body of one of the missing men was found in the willows. It was taken out and placed in the shade, the Indian being left to guard it, while they searched for the other, but they were soon called back by the Indian, who had found the other body about 100 feet from the first. Hayes and Murphey were soon joined by Thomas F. Coyle, Stewart Kirkwood and a number of others, and both bodies were carefully removed to a cool, shady place to await the arrival of a wagon to take them to Bridgeport, where they arrived about 5 o'clock. They were placed in the "Brick," in the old Justice Court room, and prepared for burial, David Hays making all the arrangements on behalf of one of the surviving brothers, who arrived about dusk. Justice L. A. Murphey summoned a Coroner's jury to meet at 9 o'clock that evening. Coroner Sayre arrived before dark and took charge of the inquisitorial proceedings. The jurors were sworn in and viewed the bodies at 9 o'clock in the evening, when an adjournment was had until 8 o'clock Sunday morning at the Court House. The following comprised the Jury: J. M. Crawford, G. E. Raycraft, D. M. Smith, James Anton, R. Grant Patterson, George Hughes, F. M. Richardson, P. G. Hughes, Clinton E. Heath, M. Ryan and David Hays, Foreman. The first witness was P. Pon, who testified the deceased were his brothers, J. U. Pon, aged 27, and J. P. Pon, aged 21, and both natives of France; the oldest having come to America in 1884, and the younger in 1887, and that he and his eldest brother were partners in the sheep business. O. L. Hayes testified as to finding the bodies; and the wreck of the milk-house, its furniture, etc., all piled together.

Frank Lucas, owner of Mormon Ranch, testified that the two men arrived at his place about 8 o'clock on Friday evening, the 13th, with a band of sheep, which were put in the corral; that he had never seen the men before. The eldest came in advance and took supper at his house. The youngest asked permission to sleep in the milk house. They both went into the milk house after their sheep had been corraled, and it was then sprinkling, and that was the last time he saw them alive. About an hour after that it began to rain very heavily, and the water soon came rushing into the room of the ranch house and filled it so full that all the men had to get out and take to the fences. Then he saw by the flashes of lightning that the milk house was gone, and looking down the meadow below the gate he could see the house floating, but up straight. About this time the men's dog and Lucas' horse came up to him and attracted his attention. The dog was swimming. He then lost sight of the house.

The jury rendered a verdict of accidental drowning. The deceased were large, fine looking men, and their sad ending enlisted the sympathy of our entire community for the brothers so suddenly bereft of those so dear to them, and the only relatives they had in this country. Fair hands placed beautiful flowers on their coffins, which were carried to Bryant's Hall, where the funeral services were conducted by Father Steck, of Bodie, at 5 o'clock Sunday afternoon, the attendance being very large. The Choir sung several pieces. After those present had viewed the remains, and the bereaved brother had taken final leave of his beloved relatives, the remains were followed to the cemetery by a long procession, a large number of young men being pall bearers. At the grave the Choir sung one piece, and W. O. Parker made a few remarks and, on behalf of the brother, thanked our citizens for their sympathy. The remains were placed side by side in one grave, a large box inclosing the coffins.

A brother of the unfortunate men had a band of sheep 13 miles beyond Aurora, Nev, and was unable to be here, there being no one to look after his sheep.

CAMPING.—A large number are camping at Buckeye. The Parmeters, Bryants, B. Whitford, of this place, and Mr. Witney and wife, of Sonora. A party of young men from Lodi, and others are rusticating there.

FREIGHTS.—Russell arrived from Carson yesterday with goods for D. Hays & Bro. He reports the Sweetwater road in good condition, the damage by the cloudburst having been repaired. Hunt's team from Carson is expected to-morrow.

THE BACK MAILS.—Back mails of the three weeks railroad strike arrived here on Thursday morning, bringing dates from June 27th to Monday last, the 16th. The influx of such a big batch of old papers, yet new to us, was enough to set a non-newspaper man crazy, but being used to snow blockades, the pile of exchanges did not give us even a headache. As most of them were filled with the "strike," of which the country is heartily tired, not much time was lost in scanning the stalest, as we had to make room for a "new stock."

TEACHERS.—The Antelope schools will open on the first Monday in September, with the following teachers: Miss Cornelia Richards, South Antelope; Miss Georgie Beeding, Antelope; and Miss Etta Mack, North Antelope. Miss Annie Dolan has charge of the Lundy school, and Miss White is retained at Bodie. The Bridgeport school will open on the first Monday in September, and Misses Zella Hayden and Tracy Barnes will probably be reappointed.

SCHOOL MONEY.—Superintendent Anderson has made the semi-annual apportionment of the State School fund, $1,016,312 64—$3 36 per capita. There are 302,474 census school children entitled to this money. The bonds in the State Treasury for the support of the public schools consist of State, $1,526,50; and counties of California, $2,306,900; a total of $3,833 400. Mono county receives $1,011 36.

TELEPHONE COMPLETED.—A. F. Bryant on Wednesday completed his telephone line to Bodie, connecting at the Standard Con. Dynamo on Green Creek. On its completion Mr. Bryant had a lengthy confab with the Bodie office. The office is at Bryant's store, from which messages can be sent to all parts of the world having telegraphic communication.

BEAUTIFUL ROSES.—Our esteemed friend, Mrs. H. Green, formerly of Alpine, now of Topaz, will accept our thanks for a large box of beautiful flowers, mostly roses of several varieties. It is pleasing to know that the friendships of our Alpine life are yet happily remembered.

HAYING has commenced, but some will not start in before the 1st of August, which will be a pretty busy month in this valley, when our ranchers may be expected to get "pretty hot in the collar," if the weather continues as warm as it has been this week.

THOSE having Watches and Jewelry to be repaired, will do well to send them to R. W. SCOTT, Bodie, who is located there for a short time. All work warranted first-class. Send by stage driver, or Express, and it will have prompt attention.

LAND ATTORNEY.—C. W. Craig, late Register of the Independence Land Office, has been made an attorney of record to practice in the Land Office he so successfully conducted during the past four years.

WILL MEET.—On Monday the Republican Central Committee will meet to fix the time and method of the primaries.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

DISTRICT FAIR.—The Eighth Annual Fair of the 18th Agricultural District will be held at Independence on the 18th, 19th, and 20th of September. The Fair last year, at Bishop, was a very successful one, and it is to be hoped that the one to be held at Independence will be equally as good, notwithstanding the depression in business throughout the country. The Independent says that liberal subscriptions have been made for premiums for races, and that at least $1,000 will be offered in purses. Here is a chance for our Bridgeport horsemen to get to work and train some of their fast nags to capture the entire sum.

THE BRODER CASE.—The trial of the Broder-Conklin case, transferred from Inyo county, and which has been to the Supreme Court several times, is set for the 31st, before Judge Virden. Broder, Conklin, Reddy and Miner will depart this life before this case is settled, if it continues to draw its slow length as heretofore.

THE ROADS.—The Bodie and Bridgeport road, damaged by the cloud burst, is being repaired. The Sweetwater road was badly washed, and the Murphey Creek bridge wrecked. It will soon be in good condition. The Antelope road is all right.

ANNUAL MEETING.—The annual meeting of the California & Nevada Wool Grower's Association was held at Fales' Hot Springs, last week, when the following officers were re-elected: President, Fred. Hardy; Vice-President, Samuel Fales; Secretary, David Hays; Treasurer, J. G. Pimentel.

A SENSELESS STRIKE.

The great strike will disrupt many labor organizations, and retire the arrogant and well paid leaders to the ranks. The strikers have been taught a number of wholesome and valuable lessons which they will do well to heed. That Unions are pernicious and prejudicial to the wage earners; un-American as they are now conducted, the intelligent mechanic and workingman must admit. The well-dressed and well-fed, jewel-bedecked leaders of the Unions, Brotherhoods, Federations, etc., instigate and foster labor dissensions for their personal benefit, to keep themselves in office at a fat salary paid from the earnings of the workingman, who has use for every dollar he earns for the support of himself and family, while these leaders are getting rich without doing a lick of work. The labor agitator is the curse of the workingman.

The strike of the Southern Pacific employees is a senseless one, inasmuch as they had no grievance against that corporation, which pays better wages and makes better provision for the comfort, safety and general welfare of its employees than any other railway corporation in the United States; but they struck because one of the non-working leaders in the corrupt and turbulent city of Chicago ordered them to do so, for the only reason that a body of men in a different line of business demanded higher wages. It was a cruel strike, as it has ruined thousands of the friends and neighbors of the Southern Pacific employees by the stoppage of passenger, freight and fruit trains throughout the State; it has caused the loss of valuable lives of both strikers and soldiers, and the wanton destruction of property—and for what? Only because men 2000 miles away want an increase of wages? There are very few sympathisers with Pullman throughout the country, and the business of the country should not be prostrated on his account. The talk of war between capital and labor is all bosh.—The one cannot get along without the other, and mutual concessions must be made in the future as in the past. We again say, the strike on this coast is a senseless one, and those in it will realize it when it is over.

The Yankee yacht Vigilant was beaten by the Britannia in the first races in English waters, but she is beginning to show her fleetness, having beaten the Britannia in the races of Monday and Tuesday. On Tuesday the Vigilant was three minutes ahead at the first round, and six minutes ahead at the third and last round, and at that point the Britannia carried away her bobstay. She then lowered her foresail, took in her topsail and gave up the race.

Bartholomew Shea, a Democratic boss, of Troy, N. Y., has been sentenced to death for the murder of Robert Ross, a Republican. Ross and brother went to the polls to vote, when Shea shot one to death, and wounded the other. With McKane in the State Prison, and Shea in ___, purity of elections may prevail in New York.

The farm house of E. Bond, near Lemore, was burned on the 10th inst., and his 9-year-old son was burned so severely that he died in two hours. The intense rays of the sun exploded an unsheltered can of coal oil, the oil splashing on the boy and house.

Solano county captured the Examiner's $5,000 gold cup. Alpine for a long time was ahead of a number of counties, including Mono and Inyo, but at the close she was at the foot with 817 votes, Inyo 844, and Mono 1,118.

Southern Pacific strikers are withdrawing from the Unions, and those who behaved as law abiding people should, are taken back, upon promising not to join labor organizations.

The Populists of this State have been reinforced by Dr. O'Donnell, who wants to be their candidate for Mayor of San Francisco. He would be a good representative of that party.

The report that the Tariff bill had finally passed both Houses was not true. The Conference is wide apart, and there is no prospect of agreeing.

The rains and cold have probably ruined the honey crop of Owens Valley.

SHORT FODDER.—A number of weekly changes are half-sheets—tie up of roads.

Candidates for office in Inyo county are as thick as honeysuckles in the valleys.

Ex-Governor Winans, of Michigan, died on the 4th inst.

Ground was broken on the Fourth for the Monterey and Fresno Railroad.

Troops have been sent to Truckee, the strikers promising trouble.

FOR UNITED STATES SENATOR.

Hon. P. Reddy seems to be the choice of the Democracy for United States Senator. Out of nearly 2,000 missives received by the S. F. Star, giving preferences of prominent Democrats throughout the State, over 1,800 expressed a preference for Pat. Reddy. If the next Legislature should be a Democratic one, which will be the case if it is thought that Mike DeYoung will be a candidate for U. S. Senator, Mr. Reddy would be more acceptable to the Republicans of Mono county than De Young, and we think he would be to the great majority of the Republicans of the State. While some of the friends of De Young have given out that he will not be a candidate to succeed our present honorable and able Senator Perkins, he has not made such an announcement over his own name, so there is no guarantee that he will not be a candidate next Winter. It is time Mr. De Young announced over his own signature that he will not be a candidate, if such are his honest intentions.

One of the most amusing oratorical blunders ever recorded was perpetrated some years ago by the chairman of a public meeting held at Hannibal, Mo., to welcome an ex-president of the United States. "Rest assured, sir," said the chairman, "that you left the presidency with the unanimous approbation of the American people."—Ex.

That will be a proper speech to make to Cleveland on his retirement, for it would be true to the letter.

More than 100,000 workmen have been made idle in Chicago by the strike, but Debs' big salary goes on all the same.

NEARING THE GRAVE.

In old age infirmities and weakness hasten to close the gap between us and the grave. Happily scientific research and pharmacal skill have allied themselves in furnishing us a reliable means of ameliorating the ailments incident to declining years, and of renewing waning physical energy. Its name is Hostetter's Stomach Bitters, a widely comprehensive remedy in disease, and an inestimable blessing to the elderly, the feeble and the convalescent. Rheumatic ailments, trouble with the kidneys and lumbago are among the more common ailments of the aged. These are effectually counteracted by the Bitters, which is likewise a prevention and curative of malarial complaints, dyspepsia constipation and biliousness. It is highly promotive of appetite, sleep and the acquisition of vigor.

"I am more than pleased with it—delighted. The place seems to me to embody all available points for a camp—dry, firm soil, good water) the very best, fine chances for drainage, and scenery unsurpassable. The view of Mt. Shasta is one of the very best to be had from any point; it is visible from every part of the ground. The view of the Crags also is fine. The general environment is of the best. It is an oval shaped amphitheater, three miles long by one fourth to three fourth of a mile wide, with receding walls two to three thousand feet in height, with lines and shades of beauty at every reach. I doubt if a better place can be found in all Northern California.

FILE YOUR NOTICE.—The Senate has passed the House bill suspending for this year the provisions of the mining law requiring $100 to be expended in labor or improvements every year on each claim, until a patent issues. To avail themselves of this suspension, miners must do as they did last year, file a notice, before the close of this year, that the owner intends in good faith to hold and work his claim. By so doing he will be exempt from that expense this year.

DIVIDEND.—The Standard Con. paid another ten cent dividend on Wednesday. It continues to be the "Old Reliable" and pays genuine dividends while the other Bodie mines continue their "Irish dividends."

ASSEMBLY CONSTITUTIONAL AMENDMENT NO. 8.

A resolution to propose to the people of the State of California an amendment to the Constitution of the State, amending section one of article two thereof, relative to the right of suffrage.

(Adopted January 26, 1893.)

The Legislature of the State of California, at its thirtieth session, commencing on the second day of January, Anno Domini one thousand eight hundred and ninety three, two-thirds of all the members elected to each house of said Legislature voting in favor thereof, hereby propose the section one of article two of the Constitution of the State of California be amended so as to read as follows:

SECTION 1. Every native male citizen of the United States, every male person who shall have acquired the rights of citizenship under and by virtue of the Treaty of Queretaro, and every male naturalized citizen thereof, who shall have become such ninety days prior to any election, of the age of twenty-one years, who shall have been resident of the State one year next preceding the election, and of the county in which he claims his vote ninety days, and in the election precinct thirty days, shall be entitled to vote at all elections which are now or may hereafter be authorized by law; provided, no native of China, no idot, no insane person, no person convicted of any infamous crime, no person hereafter convicted of the embezzelment or misappropriation of public money, and no person who shall not be able to read the Constitution in the English language and write his name shall ever exercise the privileges of an elector in this State; provided, that the provisions of this amendment relative to an educational qualification shall apply to any person prevented by a physical disability from complying with its requisitions, nor to any person who now has the right to vote, nor to any person who shall be sixty years of age and upwards at the time this amendment shall take effect.

The above is one of the nine Constitutional Amendments to be voted on next November. This proposed amendment is in response to an almost unanimous popular vote at the election of November, 1892.

There is no doubt about its adoption, and the following evidence of dense stupidity is an apt illustration of its necessity. At a water-right trial before Judge Virden, of the Superior Court of Mono county, one of the witnesses, a Frenchman, testified as follows:

"I know it was the 8th day of July, because my partner told me it was. Don't know how many days are in June and July. Don't know how many months are in the year. I don't know what day of the month to-day is. I don't know anything about the 4th of July. I have been in America three years, and I never heard of the American 4th of July. I don't know what day of the week to day is. Don't know what day of the week to morrow is. Don't know what yesterday was. I lived on the French side of the Basque country. I never heard of the Bastile, nor the French Revolution, nor Napoleon Bonaparte."

That man would be an intelligent voter.

A BRILLIANT METEOR.—At 7:30 last evening, our citizens were favored with a magnificent display of heavenly fireworks, that would have been grander, had it occurred after dark. A meteor, apparently the size of a man's head, shot out in the northwest, and was followed southerly by a long trail of fire, which was flanked by feathery spray, after traversing several degrees, there was an explosion and spreading of the trail, the whole going down over the mountains in direction of Yosemite. From it a light vaporous cloud arose and was in sight a long time. Those who were fortunate in witnessing it, say it was the grandest exhibit they ever saw in the heavens.

THE BRODER CASE.—The trial of the Broder-Conklin case, will commence on Tuesday next, the 31st, when Hon. P. Reddy and W. H. Metson, for Conklin, will cross swords with Hon. Barclay Henley and R. S. Miner, who will conduct the Broder side of the controversy. As it is so seldom we gather in our Court House at one time so many electric lights of the legal profession, it may be expected that the trial will enlist the attention of our citizens more than it would ordinarily, it being a foreign case—transferred from Inyo,

FOR SHERIFF.—We are authorized to announce W. P. Onkst, of Lundy, as a candidate for Sheriff, subject to the Republican Primary. His ability is unquestioned, and, being an old resident, has a legion of friends.

REPUBLICAN PRIMARY.—Under "New To Day," will be found the Republican Primary Election Proclamation. Under the "Crawford Plan," the election will be held on Saturday, September 15th.

FOR COUNTY CLERK.—J. H. Beane, of Lundy, announces in another column that he is a candidate for County Clerk. He is a well-known and capable young man.

THROWN OUT.—On Monday, while Mrs. Dr. Keables was coming from Bodie to Bridgeport, she was thrown from the cart by the horse stumbling, but escaped injury.

TRIED.—The case of Thompson vs. McBride, a Benton case, was tried on Tuesday in the Superior Court and submitted.

THERE will be a dance at Bryant's Hall on next Monday night.

D. A. Bender, Secretary of the Carson & Colorado R. R. Co., appeared before the State Board of Equalization, and stated that the road was losing money every day; the receipts last year were only $31,000—on an investment of $3,000,000; that 300 miles of road were operated for a scattered population of 5,000, and the receipts this year show a decrease of 33⅓ per centum from last year.

It was folly to build through Nevada. Had it gone to Genoa, Antelope Valley, Bridgeport, Bodie, Benton and Bishop, it would have paid.

MURDER IN INYO.—On Tuesday, the 16th, near Fish Springs, Inyo county, Thomas J. Goodale, a Pioneer and old resident of Inyo county, where he had held important positions, was shot and mortally wounded by parties in ambush, he dying on the 19th of his wound. He and a man named Jas. Hinds had trouble over a water right, there being a suit over it now pending in the Superior Court, and shots were fired at Goodale and his son, and H. J. McCarroll, on Monday afternoon, a ball whistling by McCarroll's head, but no one was injured, but the next morning Goodale was shot by, presumably, the same parties, Hines and son William, and L. F. and G. W. Smith having been arrested for the murder. It is not believed the Smiths were there, but that the elder Hines fired the shot that killed Goodale. It looks like a cold-blooded, murder, and one that the people would be justified in saving the county the expense of a trial.

An attempt to wreck a Sacramento train at Arcade, was made on Tuesday. Shots fired by the strikers, were returned, and it is supposed one was shot, as it was evident that a body had been dragged through the brush. Col. Graham has ordered guards to shoot all persons along the road who act suspiciously.

The Democratic Senators are enjoying a genuine "love feast" over the Tariff bill. Gormon, in a two hours' speech, denounced Cleveland; and Gorman, in turn, was severely criticised by Hill, and on Thursday Vilas denounced Gorman. The new Tariff bill is a dead duck.

On Wednesday, at Los Angeles, John Craig, an ex-policeman, shot to death A. Hunter, his father-in-law; mother-in-law, and fatally wounded his brother-in-law, George Hunter; and failed in his attempt to commit suicide.

State Senator M. D. Foley, of Reno, was shot to death in that city on Thursday afternoon by Mrs. Alice M. Hartley, an artist, formerly of Virginia City. The cause may be surmised.

The Senate Committee reported in favor of the admission of Arizona and New Mexico to the Union. The House had passed the bill.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Travel on the Red Sea.

In the waters of the Red sea the cessation of the engines on a steamer for an hour means extreme physical suffering for passengers, for a day it would involve absolute torture. The wind which prevails every day is a hot, asphyxiating blast, and its continuous directions are from north and south toward the center. As a result, every passing vessel is subjected to two days of almost intolerable heat, followed by two days of comparative comfort.

Shell Mounds of Delaware.

Interesting relics of dead and gone Indian tribes are the great mounds of oyster shells formed along the seashore in southern Delaware. According to local tradition the Nanticokes of Pennsylvania were in the habit of wintering along the seashore in lower Delaware and of eating enormous quantities of oysters. The shells testify to the appetites of the Nanticokes, and many Indian implements are found in the mounds.

Setting a Good Example.

Emperor William of Germany, it seems, will not visit the theater on Sunday. While on his recent trip to Italy the managers of the Theatro Fenice, in Venice, gave a special entertainment in his honor on a Sunday, but the audience waited in vain for King Humbert and the emperor. It was learned later that he had called instead on Countess Annina Morsini, and told her, according to Italian papers, that he had not attended a theatrical performance on Sunday since he had ascended the throne.

Secretary Holbrook of the Society for the Prevention of Cruelty to Animals, in a letter to Mayor Ellert, of San Francisco, regarding the infamous doings at the Midwinter Fair, said "it was born in iniquity and died in infamy," all of which is too true. In speaking of the Director General he said he "stood so high in the estimation of this community that the American eagle droops his wings and stands appalled at his approach." How dare Mr. Holbrook write such stuff? California's would-be "Senator" De Young?

A little knock-down occurred in the barroom of the Grand Hotel, San Francisco, one night last week, when Reel B. Terry and Richard Heath, both of Fresno fame, were invited to drink with F. H. The spectators thought it would end in shooting, and got out without ceremony.

NEARING THE GRAVE.

In old age infirmities and weakness hasten to lessen the gap between us and the grave. Happily scientific research and pharmacal skill have allied themselves in furnishing us a reliable means of ameliorating the ailments incident to declining years, and of renewing waning physical energy. Its name is Hostetter's Stomach Bitters, a widely comprehensive remedy in disease, and an inestimable blessing to the elderly, the feeble and the convalescent. Rheumatic ailments, trouble with the kidneys and lumbago are among the more common allopathies of the aged. These are effectually counteracted by the Bitters, which is likewise a prevention and curative of malarial complaints, dyspepsia, constipation and biliousness. It is highly promotive of appetite, sleep and the acquisition of vigor.

THE MINING BUREAU.

Two representatives of the State Mining Bureau, H. W. Fairbanks, geologist, and R. P. Hoagan, have been in the county this week, tarrying a couple of days in a place. They were in Bridgeport on Tuesday and Wednesday, and went to the Patterson District on Thursday to look at its mining prospects; and from there they will go to Alpine county. While the Mining Bureau is honestly doing all it can for the mining interests of the State with the small appropriation the State allows it, it is patent to the people of our mining counties, and to the attaches of the Bureau, that the skurrying of its attaches through a mining county is of no practical benefit to a mining district. With the small appropriation the Legislature reluctantly allows the Bureau it cannot be expected that its representatives can devote much time to any one district or county, and consequently it is absolutely throwing away the people's money, so far as beneficial results are concerned.

It would be better to dismiss the State and have a thorough geological examination of the mining sections, and as the matter of information give the people something for their money. Had such a course been pursued years ago we would know more in regard to the resources of this county than we do. The discovery of the Bridgeport travertine deposit would have been made years ago, instead of last Summer, and added greatly to the prosperity and wealth of this section. It would be more satisfactory if competent attaches of the Bureau had an opportunity to remain in this county several weeks, if not months, and study the character of its make-up. The next Legislature should make a larger appropriation for the Bureau, that it may do more good in its line of duty.

Instructions to Boards of Election.

1360. In addition to the challenges allowed by law, any person offering to vote at such election, may be challenged upon the grounds that he does not possess the other qualifications prescribed in the resolution, and such challenge must be determined by the Board of Election, who to that end may administer an oath to such person, and may ask them any question tending to prove or disprove the challenge.

1361. None but persons who possess the qualifications prescribed by law and by the resolution, must vote or participate in any of the proceedings at such election.

1362. After counting the votes and signing the lists, the Judges must cause the ballots and one copy of the lists to be delivered to the Secretary signing the notice of election, and one of the Judges must return the other lists for twenty days after the election.

1363. The Board of Election must issue certificates of election to all persons who are elected to fill any position by the vote of one precinct alone.

1365. All the provisions of Title IV, Part I of the Penal Code, and all the provisions of the Sections referred to in the first section of this Chapter, are applicable to elections held under the provisions of this Chapter from and after the last publication of the notice mentioned in section 1329.

TO VOTERS.

The Central Committee will furnish tickets with the names of candidates printed thereon, and voters will scratch those whom they do not wish to vote for.

CAMPING AT Sweet Brier Camp

A New and Beautiful MOUNTAIN RETREAT In the Vicinity of CASTLE CRAGS and MT. SHASTA.

Read what the Rev. J. K. McLean, Pastor of the First Congregational Church, Oakland, says of it:

Hazel Creek, April 14, '94.

* * * I am more than pleased with it—delighted. The place seems to me to embody all available points for a camp—(dry, firm soil, good water) the very best), fine chances for drainage, and scenery unsurpassable. The view of Mt. Shasta is one of the very best to be had from any point; it is visible from every part of the ground. The view of the Crags also is fine. The general environment is of the best. It is an oval-shaped amphitheater, three miles long by one-fourth to three fourth of a mile wide, with receding walls two to three thousand feet in height, with lines and shades of beauty at every reach. I doubt if a better place can be found in all Northern California.
